

HYDROMATIC® A+ BATTERY BACK-UP POWER SUPPLY

For use with Hydromatic model: B-A1/BV-A1

B-A1 pump
supplied with
the A+ battery
back-up unit.

BATTERY NOT INCLUDED

HYDROMATIC® A+ BATTERY BACK-UP POWER SUPPLY

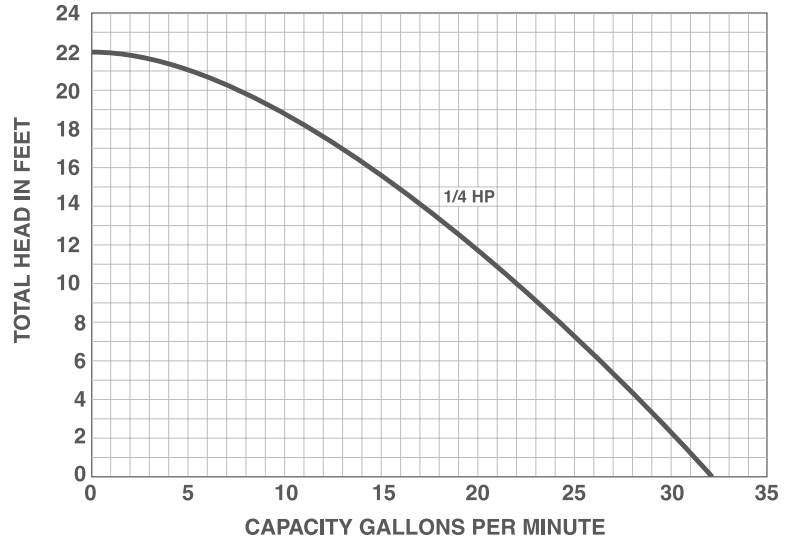

Features & Benefits

1. The A+ System allows the reliable 1/4 HP B-A1 pump to continue operating when the battery is initiated, unlike most systems which rely on an extremely small, secondary plastic pump.
2. Fully automatic, converts 12V DC into 115V AC to run your Hydromatic B-A1 Pump.
3. Automatically charges the battery. Runs the pump off of line power when available, avoiding unnecessary battery drain down.
4. Three indicator lights tell you the status of the system at all times.
5. The Hydromatic B-A1 pumps more water than most old-fashioned DC motor back-up pumps, when it really counts.
6. Electronics are fan cooled for optimum efficiency and reliability.
7. Noncorrosive battery case.
8. Power coated electronics enclosure for maximum durability and corrosion resistance.
9. Automatically checks for restored power in the AC line every five minutes.

Positive and Negative connections for battery power supply

Performance Data

For additional B-A1 pump information, please fax your request to: 419-994-9930 request literature#: W-02-6780.

Dimensional Data

All dimensions in inches. Metric for international use. Component dimensions may vary $\pm 1/8$ inch. Dimensional data not for construction purpose unless certified. Dimensions and weights are approximate. On/Off level adjustable.
