

PENTAIR

INSPIRED SOLUTIONS FOR A CHANGING WORLD

WATER + ENERGY

WATER IS USED TO CREATE ENERGY.
ENERGY IS USED TO TREAT WATER.
**WE HELP CUSTOMERS DO BOTH
MORE EFFICIENTLY EVERY DAY.**

**NEARLY 50% OF THE WATER WITHDRAWALS IN THE U.S. ARE
USED FOR ENERGY PRODUCTION ... AND 30% OF OPERATIONAL
COSTS AT WATER TREATMENT PLANTS ARE FOR ENERGY.¹**

Our changing world requires bold, innovative thinking to manage these precious resources. That's exactly what Pentair provides. We offer reliable flow management solutions that help reduce energy costs, as well as solutions to help keep energy industry operations running efficiently, effectively, and safely. We also offer advanced technologies for the separation of solids, liquids, and gases for the treatment and reuse of water, enabling customers to reclaim energy from wastewater streams. Put our expertise to work for you. Hear from Pentair panelists at the American Water Summit and visit us online.
